### **About Norva24**

Norva24 is the leading northern European player in the UIM industry[1] and offers UIM services, such as emptying, pressure washing and pipe services. On June 30, 2023, the company operated 77 branches[2] in Norway, Germany, Sweden and Denmark, with approximately 1,800 employees. The company’s history dates back to 1919 and Norva24 has since evolved from a company with Norwegian roots to being a market leader in UIM services in Norway, Germany, Sweden and

Denmark. Norva24 has a history of completing acquisitions in order to enter new markets or to consolidate its local market position, taking advantage of the highly fragmented UIM market in Europe, which is characterized by mostly small, local companies. In its four markets, the company has conducted 45 acquisitions since 2015. [www.norva24.com](http://www.norva24.com).
